

Approval of PhD Thesis Proposal

This signed form and ONE digital copy of the research proposal is to be submitted to the Graduate Programs Office for final approval. A digital submission of the form and proposal will be accepted.

It is the student's responsibility to provide a copy of the research proposal to the thesis supervisor and all members of the advisory committee.

If the proposed research involves human subjects, the student has to receive ethics approval from the Non-Medical Research Ethics Board before beginning their research.
