

# Choose the Graduate degree that's right for you!

Make a difference in your workplace and community with our research-intensive and professional graduate degrees.

## Research-Intensive Onsite Programs

Whether your goal is to advance your career with a promotion or become an academic at a college or university, our research-intensive programs give you the skills to succeed.

You're more than a student. At Western Education, you're an important part of our research team that's advancing the cause of education in Canada and around the world.

## Professionally Focused Online Programs

Our professionally focused degrees can help you solve real-world problems. You can take what you learn and apply it to your workplace or use it to advance your career and grow your professional opportunities. Select the academic path that meets your professional needs.
